During my career at what is now AT&T, I was promoted four times and lived through the process of reinventing the way to do business. I have 10 years of government experience, with the last six years in local and county legislative positions, so I understand the challenges that face government, and how those challenges impact the residents we serve. It is incredibly rewarding for me to bring my skill sets to county government and help make changes to improve the quality of life for the residents we serve.</p>	<p align="center">DIANE WEBB 32262 Barton St., Garden City, MI, 48135</p> <p>The budget deficit, lack of jobs and foreclosures are the top three. All require creative solutions. This region has lost 450,000 jobs in the automobile industry alone. Falling property values and revenue sharing reductions have swelled our budget deficit. We need to dramatically cut expenses, and I believe my business experience will be very useful. I will continue to work closely with the County Executive’s staff to diversify the economy and attract new investment to that will create jobs and increase revenue. I will push for creative programs like our Mortgage Prevention initiative to keep residents in their homes.</p>
